The Cat of Bubastes G. A. Henty 2016-07-21 George Alfred Henty (8 December 1832 - 16 November 1902) was a prolific English novelist and war correspondent. He is best known for his historical adventure stories that were popular in the late 19th century. His works include *The Dragon & The Raven* (1886), *For The Temple* (1888), *Under Drake's Flag* (1883) and *In Freedom's Cause* (1885). G. A. Henty was born in Trumpington, near Cambridge. He was a sickly child who had to spend long periods in bed. During his frequent illnesses he became an avid reader and developed a wide range of interests which he carried into adulthood. He attended Westminster School, London, and later Gonville and Caius College, Cambridge, where he was a keen sportsman. He left the university early without completing his degree to volunteer for the Army Hospital Commissariat when the Crimean War began. He was sent to the Crimea and while there he witnessed the appalling conditions under which the British soldier had to fight. His letters home were filled with vivid descriptions of what he saw. His father was impressed by his letters and sent them to *The Morning Advertiser* newspaper which printed them. This initial writing success was a factor in Henty's later decision to accept the offer to become a special correspondent, the early name for journalists now better known as war correspondents. Shortly before resigning from the army as a captain in 1859 he married Elizabeth Finucane. The couple had four children. Elizabeth died in 1865 after a long illness and shortly after her death Henty began writing articles for the *Standard* newspaper. In 1866 the newspaper sent him as their special correspondent to report on the Austro-Italian War where he met Giuseppe Garibaldi. He went on to cover the 1868 British punitive expedition to Abyssinia, the Franco-Prussian War, the Ashanti War, the Carlist Rebellion in Spain ...

The Cat of Bubastes: A Tale of Ancient Egypt G. A. Henty 2010-10-08 An Amazon Review :This book was exciting from the very beginning until the very end. I thought it was one of the best books I've ever read. It is about a Rebu Prince who lost his kingdom, his father, his family, and his home to the Egyptians in battle and was taken captive to Egypt. There, he was made a slave with his friend, Jethro. But he was not sad there for he was chosen by the high priest of the temple of the god, Osiris. Amuba, the Prince, made a friend at the priest's house, called Chebron. The main part was when they were outside trying to shoot a hawk who was killing all the water fowl. They both fired their bow and arrows. Since the prince had been in a battle, he hit the hawk but Chebron, who had never been in a battle before, missed and killed the sacred cat. In Egypt, if you kill a cat, you will be killed. From that point on in the story, things get exciting. People die, battles happen, the Prince and his comrades flee. In the end, Chebron is save because of the heroics of his friends. I rate this book a 5 star. If you want any kind of book just read this one!!

The Cat of Bubastes a Tale of Ancient Egypt by G.A. Henty J R (John Reinhard) Weguelin 2020-10-05 My Dear Lads: Thanks to the care with which the Egyptians depicted upon the walls of their sepulchers the minutest doings of their daily life, to the dryness of the climate which has preserved these records uninjured for so many thousand years, and to the indefatigable labor of modern investigators, we know far more of the manners and customs of the Egyptians, of their methods of work, their sports and amusements, their public festivals, and domestic life, than we do of those of peoples comparatively modern. My object in the present story has been to give you as lively a picture as possible of that life, drawn from the bulky pages of Sir J. Gardner Wilkinson and other writers on the same subject. I have laid the scene in the time of Thotmes III., one of the greatest of the Egyptian monarchs, being surpassed only in glory and the extent of his conquests by Rameses the Great. It is certain that Thotmes carried the arms of Egypt to the shores of the Caspian, and a people named the Rebu, with fair hair and blue eyes, were among those depicted in the Egyptian sculptures as being conquered and made tributary. It is open to discussion whether the Exodus of the Jews from Egypt took place in the reign of Thotmes or many years subsequently, some authors assigning it to the time of Rameses. Without attempting to enter into this much-discussed question, I have assumed that the Israelites were still in Egypt at the time of Thotmes, and by introducing Moses just at the time he began to take up the cause of the people to whom he belonged, I leave it to be inferred that the Exodus took place some forty years later. I wish you to understand, however, that you are not to accept this date as being absolutely correct. Opinions differ widely upon it; and as no allusion whatever has been discovered either to the Exodus or to any of the events which preceded it among the records of Egypt, there is nothing to fix the date as occurring during the reign of any one among the long line of Egyptian kings. The term Pharaoh used in the Bible throws no light upon the subject, as Pharaoh simply means king, and the name of no monarch bearing that appellation is to be found on the Egyptian monuments. I have in no way exaggerated the consequences arising from the slaying of the sacred cat, as the accidental killing of any cat whatever was an offense punished by death throughout the

history of Egypt down to the time of the Roman connection with that country. Yours sincerely, G. A. HENTY.

The Cat of Bubastes : a Tale of Ancient Egypt : with Original Illustrations (Illustrated) G. A. Henty 2019-05-05 The long and bloody feud between the houses of Orleans and Burgundy--which for many years devastated France, caused a prodigious destruction of life and property, and was not even relaxed in the presence of a common enemy--is very fully recorded in the pages of Monstrellet and other contemporary historians. I have here only attempted to relate the events of the early portion of the struggle--from its commencement up to the astonishing victory of Agincourt, won by a handful of Englishmen over the chivalry of France. Here the two factions, with the exception of the Duke of Burgundy himself, laid aside their differences for the moment, only to renew them while France still lay prostrate at the feet of the English conqueror. At this distance of time, even with all the records at one's disposal, it is difficult to say which party was most to blame in this disastrous civil war, a war which did more to cripple the power of France than was ever accomplished by English arms. Unquestionably Burgundy was the first to enter upon the struggle, but the terrible vengeance taken by the Armagnacs,--as the Orleanists came to be called,--for the murders committed by the mob of Paris in alliance with him, was of almost unexampled atrocity in civil war, and was mainly responsible for the terrible acts of cruelty afterwards perpetrated upon each other by both parties. I hope some day to devote another volume to the story of this desperate and unnatural struggle. G. A. HENTY.

The Cat of Bubastes George Alfred Henty 1897

The Cat Of Bubastes George Alfred Henty 2020-02-11 The sun was blazing down upon a city on the western shore of the Caspian. It was a primitive city, and yet its size and population rendered it worthy of the term. It consisted of a vast aggregation of buildings, which were for the most part mere huts. Among them rose, however, a few of more solid build and of higher pretensions. These were the abodes of the chiefs and great men, the temples, and places of assembly. But although larger and more solidly built, these buildings could lay no claim to architectural beauty of any kind, but were little more than magnified huts, and even the king's palace was but a collection of such buildings closely adjoining each other. The town was surrounded by a lofty wall with battlements and loopholes, and a similar but higher wall girt in the dwellings of the king and of his principal captains. The streets were alive with the busy multitude; and it was evident that although in the arts of peace the nation had made but little progress, they had in every thing appertaining to war made great advances. Most of the men wore helmets closely fitting to the head and surmounted by a spike. These were for the most part composed of hammered brass, although some of the headpieces were made of tough hide studded with knobs of metal.
